

Preparing For My Arrival

An **essential guide** for my upcoming visit

Dear

Thank you for choosing **Tidy By Tabb**! I am so excited to provide you with a top-quality cleaning experience. To ensure the best results and a smooth service, please take a moment to review the following guidelines.

Entry To Your Home

Gate Access & Security: If you live in a gated community, or have restricted access, please notify the gate attendant in advance of our arrival or provide us with an access code.

Key Or Code Entry: If we need a key or code to enter, please ensure it is provided before the scheduled cleaning time. You may leave specific entry instructions.

Alarm Systems: If your home has a security system, please disarm it or provide us with a temporary access code.

Lock-Out Fee: If the cleaner is unable to enter the property within 15 minutes of arrival (locked door, wrong gate code, etc), the client will be charged 100% of the quote.

Preparing Your Space

Declutter Surfaces: While I am happy to clean all areas, please ensure personal items, important documents, and valuables are put away to allow for efficient cleaning. **Surfaces that are 75% cluttered will unfortunately not be able to be cleaned.**

Dishes & Laundry: Unless specified in your cleaning plan, I do not wash dishes or do laundry. In order for the kitchen sink to be cleaned, disinfected, and polished, the kitchen sink must be empty. For laundry services, please make sure to leave the clothing that must be washed, in the laundry room. For more information regarding our **add-on services**, there is a designated section on the last page.

Special Requests: If you have any specific requests (avoiding certain rooms or using particular cleaning products) please let us know in advance.

Pets & Children:

- For pets safety and ours, we ask that pets be kept separated from the room currently being cleaned. If children will be home during the cleaning, please ensure they are supervised and avoid freshly mopped floors to prevent slips and falls.

Parking & Cleaning Access:

Parking: If parking is limited in your area, please reserve a nearby spot or provide instructions on where parking may be available.

Water & Electricity: Please ensure access to running water and electricity within the property itself, as they are essential to the cleaning process and our equipment.

Separate Contractors:

- We kindly ask that if you will not be home during the cleaning, please do not schedule other companies to come in at the same time (plumbers, handymen, etc) for safety reasons.

Health & Safety Precautions

COVID-19- & Illness Policy: If anyone in the home is feeling unwell, please let us know in advance to reschedule. In return, if your cleaner is under the weather, we will have to reschedule your cleaning and will provide a discount for the inconvenience.

Strong Fragrances & Allergies: If anyone in the home has sensitivity to scents or chemicals, please notify us before your service so we can adjust our products accordingly. Your comfort is our #1 priority,
